1. See regulations for information on gear restrictions and fillet lengths.

2. Subject to in-season change. Call the Recreational Groundfish Fishing Regulations Hotline at **(831) 649-2801**, visit the Marine Region Web site at **[www.dfg.ca.gov/marine](http://www.dfg.ca.gov/marine)**, send an e-mail to **[AskMarine@dfg.ca.gov](mailto:AskMarine@dfg.ca.gov)**, or call your nearest DFG office for the latest information.

3. Divers and shore-based anglers are exempt from season and depth restrictions affecting the RCG complex and other federally managed groundfish (except for lingcod). However, when spearfishing during a boat-based closure, only spearfishing gear is allowed aboard any vessel or watercraft. Also, when angling from shore during a boat-based closure, no vessel or watercraft may be used to assist in taking or possessing species included in this table. The following definitions describe boat-based and shore-based anglers, and divers:

- Boat-based anglers are fishermen angling from boats or vessels of any size or any other type of floating object, including kayaks and float tubes.
- Shore-based anglers are fishermen angling from beaches, banks, piers, jetties, breakwaters, docks, and other man-made structures connected to the shore.
- Divers are spear fishermen entering the water either from the shore or from a boat or other floating object.

4. Waters less than 10 fathoms (60 ft.) in depth around the Farallon Islands and Noonday Rock are closed at all times for all groundfish species. Waters of Cordell Bank less than 100 fathoms (600 ft.) in depth are closed at all times for all groundfish species except Pacific sanddabs and "Other Flatfish". Divers and shore-based anglers are **not** exempt from these area closures. See Section 27.30(b)(4) and Section 27.30(b)(5) for more information.

5. Total length is the longest straight-line measurement from the tip of the head with the mouth closed to the end of the longest lobe of the tail. A finfish and shellfish measurement illustration is provided in the current Ocean Sport Fishing regulations booklet.

6. In closed areas or during closed periods, Pacific sanddab, butter sole, curlfin sole, flathead sole, rex sole, rock sole, and sand sole (defined as "Other Flatfish" in Section 1.91(a)(10)) may be taken. This exception does not apply in waters less than 10 fm deep off the Farallon Islands and Noonday Rock.

7. The sport fishery for leopard shark inside San Francisco Bay, Bodega Harbor, Tomales Bay, Bolinas Bay, and Drake's Estero Bay is exempt from season and depth restrictions that affect other federally managed groundfish.

**EXCEPTION: During the open season, groundfish may be possessed in closed areas and in water depths closed to fishing only aboard vessels in transit with no fishing gear in the water. See sub-section 27.20(b).**
